“Aim high, and always remember that there is no significant downside to applying for things that might initially seem to be out of your reach.”

This was the message UOW graduate Dr James Goudkamp recently delivered to UOW Law students about the rich world of opportunities that awaits them after graduation. Dr Goudkamp can speak from experience, after gaining entry into UOW through UOW College and going on to become an Associate Professor in the University of Oxford Law Faculty.

“I completed a university entrance course at UOW College instead of pursuing the Higher School Certificate. This course was wonderful preparation for the study of law at university, and in some ways what I learned at the College gave me a significant edge over students who came to university by the high school route.

My main academic interest is the law of torts, which is mostly (but certainly not exclusively) about claims for compensation for personal injury. I wanted to write something original in that field. I have recently completed a book on defences (or answers) to responsibility in this branch of the law. It took many years of my life to write it.

I learned that hard work pays dividends, and that there are no shortcuts to many of the best destinations.”

THE UOW SYDNEY CBD CAMPUS

UOW College offers the Diploma of Business at the UOW Sydney CBD Campus (see page 8), which also offers Undergraduate Bachelor degrees and is home to the Sydney Business School, specialising in Postgraduate and Research degrees.
I attended UOW College in 2012 and took part in the UAP. The UAP prepared me in more ways than I imagined, as it catered to preparing my skills for the style and academic standards of University, prepared me the relevant areas of study for the degree I wanted to undergo, and once successfully completing my UAP course, I was guaranteed entry into my nominated degree. While at UOW College, I felt completely part of the University as I had access to all the same things as the uni students and would go enjoy all the functions they put on, which essentially helped me smoothly transition into the uni life and I even noticed I had a massive advantage in my first year classes as I was prepared in all the right ways. I am now in my final year of my Exercise Science degree and so grateful that it all started with my experience at UOW College, I highly recommend it to anyone..

uow.edu.au/careers/wlp/UI

UniVative places you in a student team that will compete with others from six leading Australian universities to solve a real business problem. You can gain skills in a range of different employment environments.

Each team is made up of students from different disciplines and backgrounds. You will be able to demonstrate your unique skills, and show potential employers how you can work in a team to solve problems. Teams have the opportunity to gain firsthand knowledge and experience about an organisation or business.

Every year there is a new and exciting business problem for UniVative teams to solve. Past challenges have included:

- Planning and promoting an open day for professional services firm Ernst & Young
- Developing communications channels for hotel group Accor
- Using Australia’s National Broadband Network to help build businesses in Australian towns
- Retaining volunteers for the Cancer Council Australia.

TOP 100 IN THE WORLD FOR GLOBAL GRADUATES

For the eighth year UOW is ranked in the top 100 universities in the world in the QS World University Rankings Graduate Employers survey. This review rates institutions based on employers’ opinions of their graduates - QS World University Rankings 2014/2015

VOLUNTEERING

Volunteering for a not-for-profit business or charity is an excellent way to improve skills (and make friends!) while learning about Australian culture and the Wollongong community. Volunteering is a great way to show employers you’re well-rounded and not afraid of a challenge.

There are many opportunities for volunteering at UOW, including:

THE AUSTRALIAN INDIGENOUS MENTORING EXPERIENCE (AIME)

uow.edu.au/wic/mentoring

Learn to be an academic mentor to a local school child with AIME. Volunteer mentors in the program work with young Aboriginal and Torres Strait Islander people to support them through their high school studies and help them achieve their best. Learn valuable organisational and interpersonal skills and meet lots of new people. AIME has gained national attention and welcomes international student volunteers.

UNICREW

unicentre.uow.edu.au/unilife/unicrew

Help run UOW student events all over campus, organise fun activities every week and support the bands that play at UOW. Organised through the Centre for Student Engagement (CSE), UniCrew are there to help make your time at UOW the best time of your life.
Without UOW College I wouldn’t be in my dream degree. Something that has stood out for me is the high level of support and help that your receive all throughout College and Uni life. That support has meant a lot to me, without it I probably wouldn’t have made it into the Bachelor of Nursing at UOW.
