UOW plays an important part in the history of Wollongong city, and is a key part of its future, educating skilled graduates for a changing economy.

Historically, Wollongong’s economy was centred around heavy industry, and it continues to employ a large number of skilled graduates from UOW. Another effect of this industrial past is Wollongong’s cultural diversity. The pristine environment and availability of work attracted migrant workers from all over the world to make Wollongong their home.

When UOW started enrolling a diverse mix of international students in the 1980s, Wollongong was already a home to many languages, cuisines, religions and customs. Today, Wollongong has a rich cultural calendar and attracts people from all over Australia and the world to enjoy a healthy, active lifestyle. My study at UOW College Australia had significant impact when entering bachelor study at UOW. It helped me to establish effective study methods, which were different from what I had previously learned in China. It helped me to adapt to the new environment and most importantly, on the academic language front, ensured my English skills were up to the University standard.

The most important thing UOW College Australia taught me was critical thinking. There’s millions of things to learn, but the most important is the learning method that could change your whole life. The critical analysis courses incorporated in the language study at College are the golden key that can open the door for academic courses later on.

I decided to study at UOW College Australia because I wanted to improve my English to gain entry to postgraduate university study. I immersed myself in the learning process and considerably improved by English skills. From my experience, the best way to learn English is through real experience studying abroad and UOW College Australia is the best place to do this.

While studying at UOW College Australia I met the most amazing and kind people from around the world and have made some great friends. My fondest memory is gaining the outstanding effort award in my class.

BASIC ENTRY REQUIREMENTS

COUNTRY SPECIFIC ACADEMIC ENTRY REQUIREMENTS

UOW and UOW College Australia recognises secondary qualifications from more than 40 countries and education systems, including GCE A levels, International Baccalaureate and SAT, from all around the world. UOW College Australia can assess students who have completed the equivalent of Australian high school (Year 12) from places such as: China, India, Nepal, Vietnam, and more. Students who have completed an approved Foundation Studies or equivalent program may also be considered for direct entry to UOW.

Not sure about entry requirements from your country?
To find out more, simply submit an application and we will assess this for you or email us at: uowcollege-admissions@uow.edu.au

ENGLISH LANGUAGE REQUIREMENTS

All students are required to provide evidence of satisfying English language requirements. For full details go to uow.edu.au/future/international/apply/english

Results in the major international English language tests are accepted, including IELTS, TOEFL, Pearson and Cambridge. For English language courses, tests should be taken within one year of course commencement.

PREVIOUS STUDY IN ENGLISH

Applicants may meet the English language requirement based on successful study in English medium in Australia or offshore.

STUDY IN AUSTRALIA OR AUSTRALIAN QUALIFICATIONS OFFSHORE

Successful completion of the following qualifications are acceptable as meeting the University’s English language requirement:

- Year 12 in Australia, or any Australian Year 12 qualification completed offshore;
- Foundation Studies, Certificate IV or Diploma with a minimum duration of one year (full-time) completed in Australia; or any of these qualifications completed at an Australian institution offshore;
- At least one year (full-time) of study toward a Bachelor or Masters degree in Australia, or at an Australian institution offshore.

OTHER QUALIFICATIONS COMPLETED IN ENGLISH

Applicants may be considered as meeting the English language requirements if successfully completing two (2) years of secondary or tertiary study at an approved institution where:

- the language of instruction was English; and
- the institution is located in a country where the official language is English.

Academic transcripts and an official letter from the institution certifying that English was the sole language of instruction and assessment must be provided. Previous study in English is considered on a case-by-case basis and does not automatically meet UOW’s English language requirement.

WHAT IS THE ENGLISH REQUIREMENT FOR MY COURSE?

The English requirement for each course is shown in the preceding course description pages. The requirements are shown in terms of the IELTS academic test requirements; for example: ‘IELTS: 6.0 (R:6, W:6, L:5, S:5)’

This means, to meet the English requirement for the Bachelor of Commerce, a minimum overall score of IELTS 6.0 is required, with at least 6.0 in reading and writing, and 5.0 in speaking and listening bands.

The equivalent scores for overall and individual band scores in the TOEFL and Pearson Test of English (academic tests) can be determined by using the table below:
