ENGLISH LANGUAGE REQUIREMENTS

All students are required to provide evidence of satisfying English language requirements. For full details go to uow.edu.au/future/international/apply/english

Results in the major international English language tests are accepted, including IELTS, TOEFL, Pearson and Cambridge. For English language courses, tests should be taken within one year of course commencement.

PREVIOUS STUDY IN ENGLISH

Applicants may meet the English language requirement based on successful study in English medium in Australia or offshore.

STUDY IN AUSTRALIA OR AUSTRALIAN QUALIFICATIONS OFFSHORE

Successful completion of the following qualifications are acceptable as meeting the University’s English language requirement:

- Year 12 in Australia, or any Australian Year 12 qualification completed offshore;
- Foundation Studies, Certificate IV or Diploma with a minimum duration of one year (full-time) completed in Australia; or any of these qualifications completed at an Australian institution offshore;
- At least one year (full-time) of study toward a Bachelor or Masters degree in Australia, or at an Australian institution offshore.

OTHER QUALIFICATIONS COMPLETED IN ENGLISH

Applicants may be considered as meeting the English language requirements if successfully completing two (2) years of secondary or tertiary study at an approved institution where:

- the language of instruction was English; and
- the institution is located in a country where the official language is English.

Academic transcripts and an official letter from the institution certifying that English was the sole language of instruction and assessment must be provided. Previous study in English is considered on a case-by-case basis and does not automatically meet UOW’s English language requirement.

WHAT IS THE ENGLISH REQUIREMENT FOR MY COURSE?

The English requirement for each course is shown in the preceding course description pages. The requirements are shown in terms of the IELTS academic test requirements; for example: “IELTS: 6.0 (R:6, W:6, L:5, S:5)”

My study at UOW College Australia had significant impact when entering bachelor study at UOW. It helped me to establish effective study methods, which were different from what I had previously learned in China. It helped me to adapt to the new environment and most importantly, on the academic language front, ensured my English skills were up to the University standard.

The most important thing UOW College Australia taught me was critical thinking. There’s millions of things to learn, but the most important is the learning method that could change your whole life. The critical analysis courses incorporated in the language study at College are the golden key that can open the door for academic courses later on.
